## City of Deltona Unveils New Community Center Designs

**September 28, 2016**—The public is invited to attend the October 3<sup>rd</sup> Deltona City Commission Meeting to see the latest designs for planned Community Center.

The City contracted with CT Hsu & Associates as the project lead in early 2016, and the architectural firm had provided conceptual artwork of the Center's front elevation and floor plan. New artwork revealing interior design and detail will be presented at the Commission meeting, as this phase is keeping with the project schedule.

The ±29,000 square foot Center is Deltona's new community center, with a scheduled ground-breaking ceremony later in 2016. The building is designed to become a community focal point and gathering place that provides a venue for events, as well as daily use in partnership with the Council on Aging. The scheduled grand opening is in December of 2017.
